

data sheet

MAAC[®] ZINC-20

Overview

ALBION[®] MAAC[®] chelated trace minerals are highly bioavailable sources of minerals.

- Feeding chelated trace mineral zinc supports the integrity of the immune system and enhances the recovery rate from immune system challenges, such as co-mingling.
- These minerals are verifiably chelated based on FTIR spectroscopy and X-ray crystallography studies.
- Research shows feeding ALBION[®] MAAC[®] trace minerals can optimize immunity, maintain reproductive efficiency and enhance performance.
